UNIVERSAL  
TIMBER  
STRUCTURES

UNIVERSAL  
TIMBER  
STRUCTURES

A specialist in the design, engineering, fabrication & installation of heavy timber and glued laminated structures nationwide.

*We create unique timber structures using your ideas and our innovative technology!*

## INTRODUCTION

*Universal Timber Structures*, which was founded in 1959, is a unique company in the heavy timber industry.

We offer a wide array of services to assist you through the entire design/build process from the earliest conceptual drawing to the installation of the project.

Because all of our service departments are under one roof, our personnel are able to work closely together through each step of the process to ensure a successful project.

The better your job looks, the better we look! Give UTS a call today to discuss your next project.

### OUR SERVICES INCLUDE:

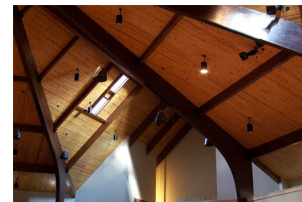

- Conceptual Design
- Budget Estimate
- Engineering / Detailing
- Component Fabrication
- Field Installation

## Religious Buildings

Glued laminated and heavy timber structures allow for large open spans and the beauty of exposed wood, a combination sure to enhance the experience of the structure.

## Residential Buildings

*Home with a natural atmosphere*

Heavy timber trusses and decking add warmth to the feel of your home.
